

Extra Information

Audio Books will remain on your Overdrive Media Console account for 7 or 14 days depending on what your account settings are. You won't have an option to renew or check-in your titles. Once your time has expired the book will automatically return to the Overdrive Media Library. A banner will display on your books each day letting you know how many days you have left in your check-out period.

While the Audio Book will be returned from your Media Console without listening or transfer options after 7 or 14 days, the audio will remain on your audio device or rewritable disc's unless you manually delete the titles yourself. eIndiana/Overdrive Consortium operates on an honor basis and assumes that you will delete the items from your audio devices once you are finished with them.

eBooks may be returned early if you are finished and want another title before the 7 or 14 days are up. But renewals can't be done. However, you can check the item back out immediately if there are no holds on the title.

A banner will appear on your checked out title letting you know how many days you have left in your check-out period. Once your time has expired you will no longer be able to open the book on ADE. To remove the book from ADE and your nook it must be done manually by connecting the nook to ADE and right clicking on the title in both ADE and on the device. A box will pop up giving you the option to delete. Click 'Delete' and the titles will disappear from your device and ADE.

3 items per person is the limit per check-out on Overdrive.
